**THE PANDEMIC AND BEYOND**  
The Arts and Humanities Contribution to Covid Research and Recovery

**An Introduction**  
PI: Professor Pascale Aebischer

CIs: Prof Victoria Tischler, Prof Des Fitzgerald, Prof Sarah Hartley, Dr Benedict Morrison  
PDRAs: Dr Karen Gray, Dr Eleanor O'Keeffe, Dr Rachael Nicholas  
PS colleagues and interns: Garth Davies, Olivia Rees, Blakeney Clark

2

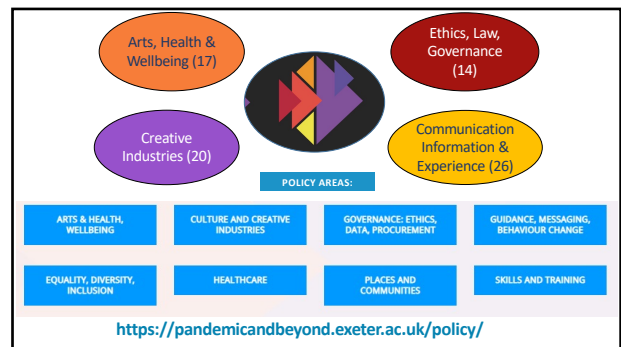

**A HUB FOR RESEARCHERS, DECISION-MAKERS, AND USER GROUPS TO UNDERSTAND HOW COVID-19 IS IMPACTING ON LAW, CULTURE, SOCIETY, HEALTH AND THE ARTS**

*The Pandemic and Beyond* brings together 70+ teams of researchers across the UK who are exploring the wide-ranging impacts of the Covid-19 pandemic and looking for solutions.

Our virtual hub connects research teams with each other and with user groups and decision-makers. Our aim is to ensure that expertise and resources are shared and that decisions about how best to tackle the pandemic and its aftermath is informed by relevant research on culture, society, law, Arts and health.

Our work is funded by the **Arts and Humanities Research Council**.

13

14

15

- **Rethink.**  
Reconsidering the explicit or tacit use of shame has to be the starting point, and has the potential to be the most difficult. This involves vulnerability, and critical reflection on the possible harms of past practice.
- **Create.**  
Formalising a collective understanding of how shame is produced and experienced can provide the basis for a shared code of conduct, or a shame-proofing toolkit to apply to future interventions.
- **Reflect.**  
Conduct frequent and challenging reviews on work of any description which has the potential to generate, spread, or exacerbate shame.

17

18

**Infection Prevention Communication**  
**Imagination-led**

Southampton

- Represent human and microbial communities on the bus
- Focus on nonhuman characters
- Use humour instead of shock tactics or didacticism
- Create positive rather than negative messaging
- Don't anthropomorphise (or monsterise) microbes as individuals
- Acknowledge microbes' invisibility to humans, but somehow represent them.

19

19

**Interim Report and four mini-films**  
**Available to watch**

Southampton

You're never alone on the bus – film 1 – 'Fresh air shows we care'.

You're never alone on the bus – film 2 – 'Use your head to stop the spread'.

You're never alone on the bus – film 3 – 'Leave some space, just in case'.

You're never alone on the bus – film 4 – 'Keep your micro-passengers to your self'.

Yan Jiang (Co-I), Lutz Marten (Co-I), Edward Simpson (Co-I)

Researchers:  
Bukola Aluko-Kpotie, Aicha Belladi, Narguess Farzad, Ida Hadjivayanis, Nancy Hawker, Youkyung Iju, Amy Parsons, Soe-Tjen Marching, Burcin Mustafa, Nareesh Sharma, Satona Suzuki, Marie Thaut, and Abshir Warsame

21

21

**Ethnic and Minority language communities**

- How to tackle disproportionate impacts of Covid-19 on migrant communities and the difficulty of reaching those communities with Public Health messages?
- Working with 14 language communities: Arabic, Algerian Arabic/French, Bengali, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Somali, Sylheti, Swahili, Turkish, and Yoruba

22

22

**Policy Recommendations**

- Provide clear English Covid-19 guidelines: even local people are confused about the government's English recommendations. In communities less versed in the nuances of English, interpretation of these guidelines can be far more confusing, rendering them less helpful.
- Work with language and culture specialist from communities and universities. They can provide advice on how to reach and communicate with each community.
- Support local governments to provide audio translations accessible both through websites and by telephone.
- Provide a hotline where people can talk/consult in their own language/s.
